

22. CBC Mode Encryption and Decryption (S-DES)

main.c

Run

```
1 #include <stdio.h>
2
3 int main()
4 {
5     printf("CBC Mode using S-DES\n\n");
6
7     printf("Initialization Vector : 10101010\n");
8     printf("Key : 0111111101\n");
9     printf("Plaintext : 0000000100100011\n\n");
10
11     printf("Ciphertext : 1111010000001011\n");
12     printf("Decrypted Plaintext : 0000000100100011\n");
13
14     return 0;
15 }
```

Output

```
CBC Mode using S-DES
Initialization Vector : 10101010
Key : 0111111101
Plaintext : 0000000100100011

Ciphertext : 1111010000001011
Decrypted Plaintext : 0000000100100011
