

3. Playfair Cipher

main.c

```
48 findPosition(a, &r1, &c1):
49 findPosition(b, &r2, &c2);
50
51 if(r1 == r2)
52 {
53     printf("Cipher Text: %c%c\n",
54           matrix[r1][(c1 + 1) % 5],
55           matrix[r2][(c2 + 1) % 5]);
56 }
57 else if(c1 == c2)
58 {
59     printf("Cipher Text: %c%c\n",
60           matrix[(r1 + 1) % 5][c1],
61           matrix[(r2 + 1) % 5][c2]);
62 }
63 else
64 {
65     printf("Cipher Text: %c%c%c\n",
66           matrix[r1][c2],
67           matrix[r2][c1]);
68 }
69
70 return 0;
71 }
```

Output

Clear

Enter First Letter: h
Enter Second Letter: i
Cipher Text: BF
